This Month’s Developer’s Poll

Each month, the Journal’s Developer’s Poll allows you to compare your opinions to those of other members of the C++Builder Developer’s Journal community. The results of this month’s poll will be published in next month’s issue, and we will forward the results to the C++ folks at Embarcadero.

Last month’s poll question was:

Which platform(s) does your application support?

a. Windows
b. OS X and/or iOS
c. Android
d. All of the above
e. (a) and (b)
f. (a) and (c)
g. (b) and (c)

The results are shown in the following chart:

These results are based on 38 votes.

This month’s poll question is:

Does your code explicitly make use of multiple cores/processors?

a. Yes, via my own code
b. Yes, via use of a parallel library
c. Yes, via use of a GPGPU library
d. No
